Schedule

Turn display off after:

☒ Slightly dim the display while on battery power

☒ Optimise video streaming while on battery

☒ Optimised battery charging

To reduce battery ageing, your Mac learns from your daily charging routine so it can wait to finish charging past 80% until you need to use it on battery.

☒ Show battery status in menu bar

☐ Low power mode

Your Mac will reduce energy usage to increase battery life and operate more quietly.

Schedule

Turn display off after:

☒ Prevent your Mac from automatically sleeping when the display is off

☒ Wake for network access

While sleeping, your Mac can receive incoming network traffic, such as iMessages and other iCloud updates, to keep your applications up to date.

☐ Low power mode

Your Mac will reduce energy usage and operate more quietly.
